

TITLE

Explain what is your purpose/aim

List the material, tools and environment needed for your work

Describe the sequence of actions and explain the reason of any choices/decisions you take

(example: I shoot with a short exposure time to avoid taking blurred photos if I shake the camera)

- What did you notice?
- What did you learn from your experience?

- What was successful? Why?
- What do you need to improve? How?
- Write about any unexpected observation/idea that might suggest you new works/experiments

Do not forget you are a visual artist! Use drawings/picture and graphic design to illustrate your documentation.
